

A workshop on the tools currently being developed for the future EnviroGRIDS portal was held at UNESCO-IHE in Delft, The Netherlands, on April 18th, 2011. The workshop was lead by the Technical University of Cluj-Napoca (UTC). (Dorian Gorgan, Victor Bacu, Denisa Rodila). CRS4 partner (Pierluigi Cau and Simone Manca) also participated in the workshop programme.

13:45 -14:05

enviroGRIDS project overview: Portal, Tools and Applications

{jd_file file==EnviroGRIDS project overview: Portal, Tools and Applications}

Dorian Gorgan

14:05 - 14:25

Grid based processing and data management

{jd_file file==Grid based processing and data management}

Victor Bacu, Denisa Rodila, Dorian Gorgan

14:25 - 15:15

SWAT model calibration and execution by gSWAT application

{jd_file file==SWAT model calibration and execution by gSWAT application}

{jd_file file==gSWAT application - movie}

Victor Bacu

15:45 - 16:00

Interoperability between Geospatial and Grid infrastructures

{jd_file file==Interoperability between Geospatial and Grid infrastructures}

Denisa Rodila

16:00 - 17:00

Spatial data visualization by BASHYT

{jd_file file==Spatial data visualization by BASHYT}

Pierluigi Cau, Simone Manca

17:00 - 17:15

Remote sensing applications

{jd_file file==Remote sensing applications with GreenLand}

Victor Bacu, Dorian Gorgan

17:15 - 17:30

Training in Earth Sciences by eGLE
