

The SuWaMa Conference will be held 19-23 September 2011, in Istanbul

The overall objective of this Conference Series is to enhance and evaluate, at the global level, decision support tools and models for the sustainable use and development of watersheds. This objective will be accomplished by:

- integration of existing expertise and advancing knowledge,
- strengthening scientific and technological excellence,
- increasing scientific acceptability through publications,
- organizing training programs,
- establishing web-based platforms.

The series of Conferences will be structured to address these issues. Pre-conference courses will be offered to provide technical training for conference participants who are unfamiliar with tools for integrated watershed management.
