

The story of environmental data - videos

Written by Administrator

Our last videos "The story of environmental data" are available on the [enviroGRIDS YouTube channel](#). They can also be found in High resolution in the [Download section](#) of the website.

The purpose of this animation is to convince the public and decision makers about the need for improved data sharing on the environment. It is also a capacity building exercise that is trying to explain in simple words the basic concepts behind Spatial Data Infrastructures.

Enjoy!
