

WP7 Objectives

Written by Administrator

- To involve decision- and policy makers in the Black Sea Catchment and disseminate project results through the Commission for the Danube (ICPDR) and Black Sea (BSC).
- To build capacity of end-users in the Black Sea catchment for the domains of EnviroGRIDS; thereby contributing to the Global Earth Observation System of Systems (GEO) by means of workshops, conferences and virtual platforms.
- To promote the sustainability of partnerships and enhance local ownership of the data and outcomes.
